

INSTALLATION SCHEDULE FOR JML 6208-3932

Nordson powder coat application machine from document 6208-3930

1.1.1. **CONTRACTOR INSTALLATION AND SET-UP** - The NORDSON POWDER COAT APPLICATION MACHINE ON DOCUMENT 6208-3930 and all associated equipment shall be assembled, installed, set-up and tested by the contractor in the area(s) designated as its functional work area by the receiving activity. The contractor shall provide all personnel, equipment, and supplies necessary for the complete installation, set-up, and testing of the proposed system.

1.1.1.1. **Coordination** - The Contractor shall coordinate a proposed installation schedule with the Receiving Activity Point of Contact within 30 days after the effective date of the contract. The installation schedule shall be subject to review and approval of the receiving activity. Approval of installation schedule shall not relieve the Contractor of any responsibility for performance in accordance with the contract. The Contractor shall coordinate the site preparation and the delivery of materials in a manner, which causes minimum disruption/interference with the Government's normal business routine.

1.1.1.2. **Work Process** - The Contractor shall provide a full time (start of installation to acceptance of the facility) field supervisor to direct installation and testing. The field supervisor shall have full authority to implement his field decisions in an expeditious manner. No work shall be accomplished when the field supervisor is not in the immediate work area.

1.1.1.3. **Methods And Schedules** - The work shall be executed in a manner and at such times as to cause the least practicable disturbance to the occupants of the buildings and normal activities of the Government. Before starting any work, the sequence of operations and methods of conducting the work shall have been reviewed and approved by the Government.

1.1.1.4. **Prior To Commencing Work**, the Contractor representative(s) shall meet in conference with the Government Point Of Contact, shop supervision, and other necessary Government personnel to discuss and develop mutual understandings relative to safety, methods and schedules, security, waste management and any other subject necessary for a smooth and successful operation.

1.1.1.5. **Energy Control (Lockout/Tags-plus)**. - The Government will provide the Contractor with a copy of the lockout and tag out controls (Lockout/tags-plus) used by the Government facility where the equipment is to be installed. The Contractor shall meet with the Government Point of Contact to discuss Lockout/tags-plus interface. The Contractor shall use the Receiving Activity's Lockout/tags-plus procedures as required by 29 CFR 1915.89. Lockout/Tags-plus procedures IAW 29 CFR 1915.89 shall be followed, where applicable. Contractors shall train their employees to Vol. II Chapter 9 of the Government's Occupational Safety and Health (OSH) manual or as directed by the Receiving Activity. Audits, surveillances and incident investigations may be performed per 29 CFR 1915.89 and the Receiving Activity's OSH Manual Vol. II Chapter 9 requirements.

1.1.2. **INSTALLATION SUPPORT SERVICES PROVIDED BY THE GOVERNMENT** - The Government will provide the following in support of the installation:

1.1.2.1. **Receiving Activity Point Of Contact** - Upon contract award, the receiving activity (Puget Sound Naval Shipyard and Intermediate Maintenance Facility) shall designate a Point of Contact who shall be responsible for appropriate surveillance and coordination of all services to be performed under this contract. The receiving activity Point of Contact shall serve as the contractor's primary contact for all interaction with other Government activities.

1.1.2.2. **Utilities** - Reasonable amounts of water, shop air (80-90 psi) and electricity shall be made available adjacent to the assembly site at no cost to the contractor. The Contractor shall be responsible for any costs incurred in connecting, converting and transferring the utilities to the work.

1.1.2.3. **Lifting And Rigger Services** - The contractor shall provide all material handling equipment necessary to unload equipment, transport equipment to the installation site and any other equipment, (such as forklifts, Bobcats, man-lifts, etc.) necessary for continuous support of the installation and shall provide qualified personnel to operate it.

NOTE: The use of privately owned cranes by contractor personnel at the installation site is restricted. Contractors requiring cranes in the performance of this contract shall provide the Government with sufficient information (loads, locations, time , etc.) for arranging Government support services and approvals.

1.1.2.4. **Storage** - Lay-down area will be provided within the vicinity of installation site for storage of Contractor materials and tools. The Government does not accept responsibility for security of Contractor's materials or tools. The area must be kept clean and orderly, free of rags, paper and other debris. Failure to maintain area in a clean condition may result in the loss of the area. The Contractor shall be responsible to restore the storage area to original condition after use.

1.1.2.5. **Disposal Of Waste** - The receiving activity is the owner of all waste (hazardous or otherwise) generated within its facilities. This includes waste generated by contractor personnel while working at Puget Sound Naval Shipyard and Intermediate Maintenance Facility. All waste generated by this contract shall be turned over to the Government for disposal prior to the end of the work shift.
